"Always striving forward"

Over 150 Years

Dr. Willmar Schwabe

Estd. in 1866

In more than 150 years, Schwabe has transformed a lot from a producer of homoeopathic medicines to a leader in homoeopathy, phytopharmaceuticals and herbal nutraceuticals. It is today known for its research, quality and authenticity in these fields. Schwabe's contribution to homoeopathy and phytopharmaceuticals cannot be written in a single page. Starting from its Central Homoeopathic Dispensary and thoroughly researched "Pharmacopoeia Homoeopathic Polyglotta", today it has spread over 60 countries in the field of homoeopathy, phytopharmaceuticals, neutraceuticals, bodycare products, etc.

Dispatching medicinal products
from Leipzig to Bombay

Schwabe has been serving the Indian customers for more than 100 years. The oldest record is of 1903. The then Schwabe's Bombay depot had handled the supplies of Dr. Willmar Schwabe, Leipzig. We take the opportunity to thank all the patrons for their co-operation. To effectively cater the need of Indian customers, its subsidiary Schwabe India started its operation from 1997. In the last 20 years from 1997 to 2017, we have grown from a few handfuls of products to having largest range of homoeopathic remedies in India today. Schwabe India range now has more than 1100 single remedies, including 500 mother tinctures, biochemics, biocombinations, LM potencies and LATTs. Besides, there are over 50 products from the Schwabe's internationally acclaimed formulations. The organisation has also diversified into Phytomedicine and Body Care Range. Schwabe India has been conferred Alternative Medicine Brand of the year 2014, India's Most Quality Brands 2014-15, Quality Brands India 2015-17, and National Industrial Excellence Award acknowledging its tireless efforts to providing safe and superior quality products to Indian consumers at affordable prices. With many such achievements the company today marching ahead with the motto of the founder "Always striving forward".

Introduction

Product Catalogue

This Product Catalogue contains a very comprehensive listing of Schwabe India's Homoeopathic and bodycare product range that you can use in your day-to-day practice. In this edition, we have made every effort to make the catalogue as user-friendly as possible.

We have given a set of easy-to-use instructions about the entries made in the single remedies section (refer to Drug listing below). This will help you find any mother tincture or dilution (in all the potencies that we supply) that you wish to order from us.

Drug Listing

All the single remedies are arranged in alphabetical order. For your convenience, an attempt has been made to list the drugs by the names used in homoeopathic literature and pharmacopoeias.

The sign = means that the drug is known by more than one name.

Example : The product Ginseng in page no. 28. The other names for Ginseng are, Panax ginseng and Aralia quinquefolia. All the three are the same drugs.

The sign 'S' stands for synonym.

Example : Ginkgo and Ginkgo biloba are synonymous. In other words they mean the same. It only directs you to see the drug by its pharmacopoeial name entry.

N = NOSODE, S = SARCODE, I = IMPONDERABILIA, T = TAUTOPATHY/SYNTHETIC PREPARATION

*Recent scientific developments and subsequent upgradation in the pharmacopoeia(s) worldwide have brought more precision in the raw materials and clarity in the nomenclature of drugs. As per current status, **Tuberculinum** is prepared from the standardised culture of the microorganism Mycobacterium tuberculosis, **Tuberculinum bovinum** is prepared from the standardised culture of the microorganism Mycobacterium bovis, **Aviaire** (Tuberculinum aviae) is prepared from the standardised culture of the microorganism Mycobacterium avium and **Bacillinum** (Burnett) is prepared from the pus/lung of Tuberculosis. Hence 2 variants of Tuberculinums, Tuberculinum GT and Tuberculinum Koch, have been converged into one, i.e. Tuberculinum.
